INTRODUCTION

HILL DIRECTORY CO., Inc., publishers of Southeastern Directories, present to subscribers and the general public, this, the 1950 edition of the Charlotte City Directory.

Confidence in the continued growth of Charlotte's industry, population and wealth, and in the advancement of its civic and social activities, will be maintained as sections of this Directory are consulted, for the Directory is a mirror truly reflecting Charlotte to the world.

The enviable position occupied by HILL'S Directories in the estimation of the public, has been established by rendering the best in Directory service. With an unrivaled organization, and having had the courteous and hearty cooperation of the business and professional men and residents, the publishers feel that the result of their labors will meet with the approval of every user, and that the Charlotte Directory will fulfill its mission as a source of authentic information pertaining to the city.

Six Major Departments

The six major departments are arranged in the following order:—

THE ALPHABETICAL LIST OF NAMES of residents and business and professional concerns is the first major department, printed on white paper. This is the only record in existence that aims to show the name, marital status, occupation and address of each adult resident of Charlotte, and the name, official personnel, nature and address of each firm and corporation in the city.

THE BUYERS' GUIDE, the second major department, printed on goldenrod paper, contains the advertisements of leading manufacturing, business and professional interests of Charlotte. The advertisements are indexed under headings descriptive of the business represented. This is reference advertising at its best, and merits a survey by all buyers eager to familarize themselves with sources of supply. In a large commercial and industrial center like Charlotte, the necessity of having this kind of information immediately available, is obvious. General appreciation of this fact is evidenced by the many reference users of this City Directory service.

THE CLASSIFIED BUSINESS DIRECTORY is the third major department, printed on yellow paper. This department lists the names of all business and professional concerns in alphabetical order under appropriate headings. This feature constitutes an invaluable and indispensable catalog of the numerous interests of the community. The Directory is the common intermediary between buyer and seller. As such it plays an important part in the daily activities of the commercial and professional world. More buyers and sellers meet through the Classified Business Directory than through any other medium.

THE POSTAL UNIT GUIDE, on pink paper, is the fourth major department.This section is reproduced verbatim from copy supplied by the postal authorities.

THE DIRECTORY OF HOUSEHOLDERS, INCLUDING STREET AND AVENUE GUIDE, on pink paper, is the fifth major department. In this section the named streets are arranged in alphabetical order, followed by the numbered streets in numerical order; the numbers of the residences and business concerns are arranged in numerical order under the name of each street, and the names of the intersecting streets appear at their respective crossing points on each street. Special features of this section are the designation of tenant-owned homes and the designation of homes and places of business having telephones.

THE NUMERICAL TELEPHONE DIRECTORY, on blue paper, is the sixth major department.

Municipal Publicity

The Directory reflects the achievements and ambitions of the city, depicting in unbiased terms what it has to offer as a place of residence, as a business location, as a manufacturing site and as an educational center. To broadcast this information, the publishers have placed copies of this issue of the Directory in Directory Libraries, where they are readily available for free public reference, and serve as perpetual and reliable advrtisements of Charlotte.

The Charlotte Directory Library

Through the courtesy of the publishers of the Charlotte City Directory, a Directory Library is maintained in the offices of the Charlotte Chamber of Commerce, for free reference by the general public. This is one of more than 600 Directory Libraries installed in the chief cities of the U. S. and Canada by members of the Association of North American Directory Publishers, under whose supervision the system is operated.

The publishers appreciatively acknowledge the recognition by those progressive business and professional men who have demonstrated their confidence in the City Directory as an advertising medium, with assurance that it will bring a commensurate return.

CHARLOTTE

"QUEEN CITY OF THE SOUTH"

(Courtesy Charlotte Chamber of Commerce, Inc.)

LOCATION

Charlotte, pulsing chief city of the Carolinas, dominates a rich, undulating plateau between the Appalachian Mountains and the Atlantic coastal plain. The city is the geographic center of a young, rapidly-expanding market. It is 550 miles southwest of New York; 230 miles northeast of Atlanta; 600 miles southeast of Chicago; 330 miles southwest of Washington; 160 miles from the Atlantic Ocean; and far south of knee-deep snow. Charlotte is accessible from every direction by every known conveyance except an ocean-going ship. It is 779 feet above the sea, in latitude 35 degrees 14 minutes n., longitude 80 degrees 50 minutes w.

CLIMATE

Charlotte winters are seldom uncomfortable and never as severe as those experienced in the Northern and Western states. Summers are warm, but rarely uncomfortable. The average annual temperature is 60.7 degrees, with a seasonal variation of 36.5 degrees from 42.3 degrees in January to 78.8 degrees in July. Pleasant, mild temperatures are enjoyed for more than six months of the year—60.4 degrees in spring, 61.8 degrees in fall. Average winter temperature is 43.2 degrees; summer, 77.6 degrees. The frost-free season spans midyear from March to November, averaging 237 days. Other data: Annual rainfall averages 49.12 inches. Morning humidity averages 78%; noon, 57%, and evening, 63%.

POPULATION

An estimated 140,000 people enjoy the corporate advantages of Charlotte's 29.7 square miles. During the 1940 U. S. Census, 100,899 persons were counted in the city, thus making Charlotte the first city in the Carolinas to pass the 100,000 mark. Since that time the city limits have been extended to include 10.4 additional square miles of heavily-populated area. These new citizens account for a large part of the increase since 1940. Other significant census figures for Charlotte are: 1850, 1,065; 1900, 18,091; 1920, 46,338; and 1930, 82,675. Females dominate the populace, with a 52.8% majority. The white race accounts for 67.1%. Less than 1% is foreign-born. The population of the retail trading area (60-mile radius) exceeds 1,250,000; the wholesale trading area (150,mile radius) has a booming 4,500,000 consumers.

GOVERNMENT

Charlotte is governed by a popularly-elected mayor and seven councilmen. A city manager, appointed at the pleasure of the council, is the administrative head of the city government. The City Hall is a handsome three-story building of neo-classic design which was erected in the early 1920's on a site six blocks from the center of the city. Public services include excellent schools, an expertly-manned police department, a modern fire department, extensive water and sewerage facilities, health and welfare departments, and many others.

Mecklenburg County, of which Charlotte is the seat, is governed by a board of county commissioners. The chairman of this board is the chief administrative officer of the county. Historic Mecklenburg, the wealthiest county

Central Business District

in the state, has a fine school system and an efficient rural police force, and provides its citizens with superior public services. The Mecklenburg County Court House, situated adjacent to the City Hall, is an imposing building with stately columns of neo-classic design. Like the City Hall, it has become one of Charlotte's showplaces.

Since Charlotte is the largest city in the state, the government of North Carolina maintains a number of branch offices here to serve the people of the surrounding area. Likewise, the Federal Government has various regional offices located in the city, representing almost every major department of the U. S. Government. Federal offices are concentrated in the U. S. Post Office and Court House on W. Trade St. The lobby of this handsome structure measures 395 feet from end to end.

TAXES

The City and County assess ad valorem taxes on all real and tangible property at the following rates per $100 valuation: City, $1.89; County, $.89. In actual practice, property valuations are well below true values. Only minor occupational licenses are required by the City. North Carolina income tax is assessed at a rate of 3% for the first $2,000 net income; 4% on the next $2,000; 5% on the next $2,000; 6% on the next $4,000; and 7% on all over $10,000. Corporations are taxed 6% of their taxable net incomes. Liberal exemptions are allowed for both individuals and corporations.

COMMERCE

With more than 1,250,000 people living within easy motoring distance of Charlotte, the city has become one of the 25 greatest markets in the nation. The retail sales volume now exceeds $200,000,000 annually. Approximately 1,500 retail establishments in the city offer consumers almost every conceivable product. Downtown streets are lined with modern, well-appointed stores which, through attractive merchandising, draw people from all sections of the Piedmont. The total buying power of the Charlotte market exceeds $1,000,000,000 annually, and the city's per-family buying power of $6,822 a year is tops for the Carolinas.

Charlotte, strategically located in the center of the Southeast, is rapidly becoming Dixie's leading distributor. Hundreds of trucks, operated by 90 different truck lines and four railroads moving an average of 290 carloads a day, shuttle goods in and out of this vast Dixie warehouse. Wholesale sales now exceed $638,000,000 a year to place the city about 30th in the nation, a much higher ranking than the population would indicate. The 400 or more national manufacturers who have established warehousing facilities in Charlotte are in a highly advantageous position to reach this great, growing market.

Charlotte Memorial Hospital

Charlotte is far and away the financial giant of the Carolinas. The city's eight large commercial banks cleared $4,042,169,184 in checks during 1948. Total resources of these banks exceed $550,000,000. One of Charlotte's many investment banking concerns is ranked as the ninth largest in the country, which is a reflection of the financial activity of the city. Charlotte also has a branch of the Federal Reserve Bank, which cleared $11,603,754,000 in checks during 1948.

INDUSTRY

Charlotte is the geographical center of the vast Southern textile industry which has its heaviest concentration in the Piedmont Carolinas, where two-thirds of all the looms and spindles in the South are located. Although there are 60 textile mills in the immediate vicinity, Charlotte, unlike many Southern cities, is not completely dependent upon textiles. Machinery, chemicals, food products, furniture, clothing, printing, building materials, all are major products of Charlotte's balanced economy.

Charlotte's 360 manufacturers employ more than 20,000 persons, many of whom have developed great skill in the technological processes of modern industry. In addition, there is a sizable reserve of manpower on the many farms of the surrounding area available to supplement the present labor force. Native-born Americans comprise 99% of the entire labor force. Charlotte always has enjoyed excellent labor-management relations and has never had a major work stoppage.

Charlotte offers manufacturers many advantages which have contributed to the rapid expansion of industry in this area. Some of the advantages are: (1) Reserve of skilled and unskilled labor. (2) Superior rail and trucking facilities. (3) Excellent communication facilities. (4) Extensive power and water supplies. (5) Excellent plant sites and buildings. (6) Pleasant, mild climate. (7) A friendly, progressive community. (8) Central location in the Southeast.

Although the expansion of manufacturing in the Charlotte region has been substantial, agriculture is still the basic industry of Mecklenburg County. Mecklenburg's fine farms and dairies support nearly 16,000 farmers and farm hands. Principal products are corn, cotton, grain, vegetables, poultry and dairy products.

UTILITIES

Charlotte is headquarters for the Duke Power Co., which supplies electrical power throughout the Piedmont Carolinas. The vast Duke Power system has twelve major hydro-electric plants with a total rated installed capacity of 444,220 kilowatts and six steam plants with a capacity of 659,400 kilowatts. Total rated installed capacity is 1,103,620 kilowatts. Duke Power's forward-looking policies, as evidenced by a $100,000,000 post-war expansion program, have played a vital part in the industrialization of the Piedmont. Another step forward for the Piedmont is the proposal by the Piedmont Natural Gas Corp. to construct a pipeline to bring natural gas to this area.

Mecklenburg County Court House

The City of Charlotte has invested an estimated $10,000,000 in its water facilities. The present rated capacity of the system is 17,000,000 gallons per day; however, a $2,000,000 expansion of facilities will soon boost the rated capacity to 24,000,000 gallons a day. The city was the first in the Southeast to introduce fluorine into its water as a means of reducing tooth decay. The fluorination program, which was begun April 1, 1949, will be particularly beneficial to future generations of Charlotte citizens.

TRANSPORTATION

Charlotte is the transportation center of the Carolinas. Four railroads operate 54 passenger trains and haul an average of 290 carloads of freight every day; four air lines operate 57 scheduled flights a day; five bus companies schedule over 300 regular departures each day; and 90 truck lines haul thousands of tons of goods to points throughout the South and East. Railroads with lines into Charlotte are: Southern, Piedmont & Northern, Seaboard, and Norfolk-Southern. Air lines are: Eastern, Capital, Piedmont and Southern. Bus companies are: Queen City Coach, Carolina Scenic Stages, Carolina Coach, Carolina Transit Lines, and Greyhound.

COMMUNICATIONS

The Southern Bell Telephone Co. has more than 50,000 telephones in Charlotte. The company has calculated that the city will have a population of 237,000 by 1966, and is rapidly expanding facilities on this assumption. It is now estimated that 58,000 telephones will be in operation by Jan. 1, 1950. Southern Bell's state headquarters are located in Charlotte. The city also is a relay point in the vast Western Union system, and processes telegrams for cities throughout the region.

EDUCATION

Charlotte's excellent public school system embraces 30 schools with an enrollment of 20,000. The Mecklenburg County system has 43 schools with an enrollment of 13,000. Both systems are now undergoing large expansion programs. Colleges located in and near Charlotte are: Queens College, women,

enrollment 400; College Center of the University of North Carolina; Johnson C. Smith University, Negro co-educational, enrollment 1,600; and Davidson College (in Davidson, N. C., 20 miles north), men, enrollment 950. In addition to these, Charlotte has many fine business schools. Among these are Burton Institute, Kings Business College, National School of Commerce, Carolina Business School, and Evans College of Commerce.

MEDICAL FACILITIES

Charlotte has four excellent general hospitals with a combined total of 980 beds, and several special hospitals with 332 beds. The city has 223 doctors, of which about 100 are certified specialists. Because of these facilities and the availability of such a large number of specialists, Charlotte has become a medical center of considerable importance. The general hospitals are Charlotte Memorial, Presbyterian, Mercy (Catholic), and Good Samaritan (Negro).

NEWSPAPERS AND RADIO STATIONS

Charlotte has two widely-circulated, top-notch daily newspapers. These are The Charlotte Observer (published mornings, circulation 134,000, Sunday 140,000) and The Charlotte News (published evenings except Sunday, circulation in excess of 70,000). There are six radio stations broadcasting programs of all major networks. These stations are: WBT (AM and FM, CBS); WSOC (AM and FM, NBC); WAYS (AM and FM, ABC); WGIV (AM, independent); WIST (FM, Mutual and Dixie FM); and WMIT (FM). WBTV, the Carolinas' first television station, began operations in July, 1949, and three other stations have TV applications pending.

TRAVELERS' ACCOMMODATIONS

Charlotte has seven principal hotels with 1,300 rooms, and a number of smaller hotels. In addition, there are numerous first-class tourist homes and motor courts convenient to the motoring public. The largest hotels are: Hotel Barringer, Hotel Charlotte, Selwyn Hotel, Mayfair Hotel, Mecklenburg Hotel, and Clayton Hotel.

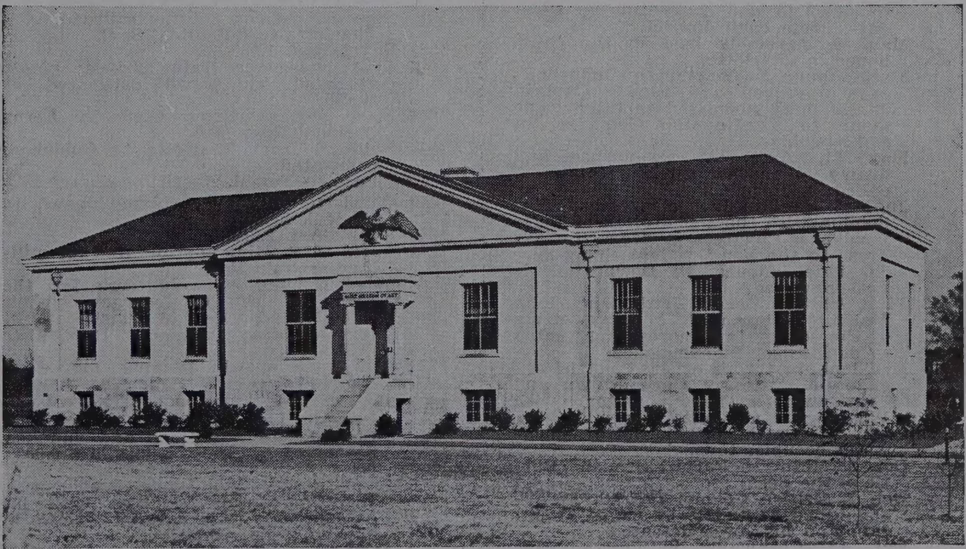
CHARLOTTE HISTORY

When the first settlers—Scotch-Irish, English, Germans, Huguenots—penetrated into the southern Piedmont section of North Carolina they found



Mint Museum of Art

deer and bear, wolves and Catawba Indians in awesome numbers. But, undismayed, the settlers went about the job of making homes for themselves.

Tiny Charlotte, only 360 acres of Mecklenburg County soil, was incorporated in November, 1768. Six years later the settlement became the county seat and organized a regular town government. Although Charlottetown could boast only a handful of settlers, its spirited defiance of the British was known from St. Augustine to Plymouth Rock. On May 20, 1775, Charlotte patriots signed the Mecklenburg Declaration of Independence, a document which, though not generally acted upon until a year later, laid the foundations of the American Declaration of Independence on July 4, 1776.

Charlotte played a spunky and effective part in the conflict which followed. British General Cornwallis, who was in the town for awhile, called the place "a damned hornet's nest" of rebellion. That reputation has been perpetuated in the city seal.

During the days following the war, Charlotte began to show promise; even so, the town was still a mere upstart in the wilderness. Wilmington, New Bern, Raleigh, Edenton, were far larger. Even by 1850 Charlotte could count only 1,065 heads.

After surviving the rigors of the Civil War and reconstruction, Charlotte began anew its ascendancy as the chief city of the Carolinas. Each Federal Census in the years which followed foretold Charlotte's destiny. Today its top position in the Carolinas is undisputed.

AIDS TO PROPER MAILING

Write name and address plainly and completely.

Place name and address of sender on all matter.

Prepay postage fully on all letters and parcels.

Always address mail for city delivery to street and number and request correspondents to do likewise.

Use designation North or South, East or West when it is a proper part of the address and save delay in delivery.

Insure valuable parcels except those containing small articles of considerable value which should be registered.

Wrap parcel post carefully in heavy paper and tie knots securely.

You will often gain a day's time in delivery by depositing mail as soon as it is ready.

Use Postal Unit numbers on mail addressed to cities where Unit Numbers are required.
